Goals

1. Know what clients are asking via virtual care
2. Strategy to integrated virtual care into a practice

Im having a very bad day and now this. I need your advice please. B ate and vomited part of it but not all of a hard plastic pirate coin. I found one tiny piece, its sharp. Then vomit spots with some chewed up in it but i cant be sure all of it is in there. She never does this. What do i need to watch for?

I'm sorry. Watch for more vomit. Let me know if she keeps throwing up

Delivered

Ok. Thank you.
